## **Declaration of Compliance with the EU Packaging and Packaging Waste Regulation (PPWR)**

Doc. No. : PPWR/JUL-VII/2026

Issued Date : July 16, 2026

### **1. Product Identification**

**Product** : All paperboard products

**Product Name** :

- BoardOne FBB GC1 Hi-Bulk
- BoardOne FBB GC1 Hi-Bulk High White
- BoardOne FBB GC2
- BoardOne FBB GC2 OBA Free
- BoardOne ArtBoard Plus
- BoardOne Platestock
- BoardOne Uncoated Platestock
- BoardOne Cupstock HB NW
- BoardOne Cupstock HB HW
- BoardOne FBB EdgePak
- SilverPak FBB GC1 Plus

**Manufacturer** : PT Riau Andalan Paperboard International

**Address** : Jalan Lintas Timur, Pangkalan Kerinci, Kabupaten Pelalawan, Riau 28300, Indonesia

## **2. PPWR Regulation Introduction**

The Packaging and Packaging Waste Regulation (PPWR) is the European Union's legislation governing packaging and packaging waste. It replaces the previous Packaging and Packaging Waste Directive (94/62/EC) with a directly applicable regulation that establishes harmonized requirements for all EU Member States. The PPWR entered into force on 11 February 2025, and most of its provisions apply from 12 August 2026. PPWR mandatory requirements are packaging minimization, recyclability and restrictions on substances of concern (PFAS, heavy metals).

## **3. Fluorine Content**

Per- and polyfluoroalkyl substances (PFAS) are synthetic chemicals widely used in various applications, including food-contact materials and packaging. Due to their high persistence, PFAS can accumulate in the environment and have been associated with potential risks to human health, including cancer, reproductive effects, and organ toxicity. Therefore, PFAS are considered substances of significant environmental and health concern.

No intentionally added PFAS, including PFOS and PFOA, are used in the manufacture of our paperboard products or throughout our upstream supply chain. Routine assessments and product testing are conducted to support product safety and compliance with applicable regulatory requirements.

## **4. Heavy Metals Content**

Under the EU Packaging and Packaging Waste Regulation (PPWR) (EU) 2025/40, the heavy metal restriction remains the same as under the former Packaging Directive 94/62/EC. The regulated heavy metals are Lead (Pb), Mercury (Hg), Cadmium (Cd), and Hexavalent Chromium (Cr(VI)). The sum of concentrations of these heavy metals does not exceed 100 mg/kg.

Our products in accordance with the requirements set forth in the EU RoHS Directive (EU) 2015/863, amending Annex II to Directive 2011/65/EU, are in full compliance with the provisions relating to the restriction of hazardous substances. Specifically, we confirm that our products do not contain any of the following substances above the maximum concentration values (MCVs) specified Lead (Pb), Mercury (Hg), Cadmium (Cd), and Hexavalent Chromium (Cr(VI)).

**5. REACH SVHC Content**

We hereby declare that our products are in full compliance with Regulation (EC) No. 1907/2006 concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH). Specifically, we confirm that our products do not contain any of the 253 Substances of Very High Concern (SVHC) listed in the Candidate List published by the European Chemicals Agency (ECHA) on February 4, 2026.

Our products have been tested and reviewed to confirm that no intentionally added SVHCs exceeding applicable REACH thresholds are present. We are committed to ensuring the continued safety and compliance of our products in accordance with this regulation.

**6. Bisphenol A (BPA) Content**

Bisphenol A (BPA) is subject to restrictions under Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR) as part of the regulation's measures to minimize the presence of hazardous substances in packaging and to ensure a high level of protection for human health and the environment.

Our products have been tested and reviewed to verify that they do not contain intentionally added Bisphenol A (BPA). BPA is not intentionally used in the manufacturing process of these products. Compliance is supported through product testing to ensure adherence to applicable regulatory requirements. We remain committed to maintaining the safety and regulatory compliance of our products in accordance with this regulation.

**7. Paperboard Recyclability**

Our paperboard products are fibre-based paperboard designed to be compatible with established paper recycling streams based on their material composition. The actual recyclability of the final packaging depends on factors such as the overall packaging design, the presence of additional materials or converting processes, and the availability of suitable collection, sorting, and recycling infrastructure. This statement is based on the composition and manufacturing process of the paperboard products and should not be interpreted as a third-party certification or laboratory verification of recyclability.

**8. Packaging Material Declaration**

The packaging materials of our paperboard products are:

**a. Folio (Bulk Pack)**

Pallet : wooden (mixed hardwood)  
Plastic film : LDPE, transparent and colorless  
Top board : corrugated board  
Strapping band : PET, green  
Label : semi-coated paper  
Edge protector : cardboard

**b. Folio (Ream Wrapped)**

Pallet : wooden (mixed hardwood)  
Kraft : PE laminated kraft paper  
Plastic film : LDPE, transparent and colorless  
Top board : corrugated board  
Strapping band : PET, green  
Label : semi-coated paper

**c. Customer Roll**

Kraft : PE laminated kraft paper  
Label : semi-coated paper  
Paper core : medium liner and kraft liner  
Core plug : polypropylene

**9. Supporting Documents**
