To Whomever this may concern,

We confirm that all coated paper products supplied by Moorim Paper and P&P are **free from per- and polyfluoroalkyl substances (PFAS)**. Our formulations, raw-material sourcing, and production processes have been fully assessed to ensure that no PFAS chemicals are intentionally added, and no detectable trace is present in the finished products.

In addition, we confirm that our products comply with all applicable **European Union regulations**, including:

- **REACH Regulation (EC) No 1907/2006**, including current restrictions on PFAS substances.
- **Regulation (EC) No 1272/2008 (CLP)** regarding classification and labelling of chemical substances.
- Any relevant national implementations or updates relating to PFAS restrictions within the EU.

Our compliance is supported by supplier declarations, internal material audits, and ongoing monitoring of regulatory developments to ensure continued alignment with EU chemical-safety requirements. Please find enclosed a copy of our SVHC report to confirm the results.

Should you require additional supporting documentation, technical data, or additional certification for your records, we will be pleased to provide it.

Kind regards,

**MOORIM PAPER Co., Ltd**
